Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on November 10, 2009 has been entered.

Claim Rejections § 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 32 – 35, 38 and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 02/43634.

With respect to claims 32, WO 02/43634 (hereinafter '634) discloses a method of treating an open wound having a wound surface located inwardly of healthy skin surrounding the open wound, the method comprising:

providing a relatively thin and flexible member (abstract) having a wound contacting surface with holes in the wound contacting surface (see figures), a port (27) to be attached to a vacuum source and a plurality of channels (figure 15) extending between the holes and the port (pages 3 – 4), and spacers coupled to the wound contacting surface, wherein the spacers and the wound contacting surface are made from the same material (page 20);

positioning the member so that at least a portion of the member is inside the open wound having at least some of the spacers resting against the wound surface to space the wound contacting surface of the member apart from the wound surface, and

providing a cover over the member to define a space above the wound surface in which a vacuum is formed when the port is connected to a vacuum source as set forth throughout the disclosure, see especially pages 13 – 20.

As to claim 33, see page 4, lines 1 – 4.

With reference to claim 34, see pages 16, line 30 to page 17, line 4.

As to claim 35, see page 25.

With reference to claims 38 and 40, see the disclosure of WO 02/43634 and the rejection of claims 32 – 35 .

Response to Arguments

Applicant's arguments with respect to claims 32 – 35, 38 and 40 have been considered but are moot in view of the new ground(s) of rejection.
